

## HEALTH CAREERS/ PHLEBOTOMY

1 Yr Program

# Careerline Tech Center

- Students learn the health care delivery system, its occupations and related sciences with an emphasis on Phlebotomy (blood draws) certification
- Develop skills in medical terminology, anatomy & physiology, and phlebotomy
- Skills taught include obtaining vital signs, safety in the healthcare setting, basic patient care, communication, CPR, and First Aid

### POTENTIAL CAREERS:

- Medical Assistant
- Patient Care Technician
- Phlebotomist
- Nursing
- And many more

### CREDITS & CERTIFICATION

Students will earn elective credit at their high school upon completion of this course. Please see your counselor for eligibility towards 4th-year math-related, 3rd year science-related, or VPAA credits. Certifications available in First Aid/AED/CPR, and Phlebotomy. Direct or articulated college credits may be available. [Click here](#) for details.
