

Good Afternoon,

Please share these updates with your staff to support their implementation of the Delta Math RtI Program.

1. Enrollment Preparation for Winter Screening
2. New Kindergarten and Geometry Readiness Screeners
3. Kids Back on Track Program

1. Enrollment Preparation for Winter Screening

- Winter screeners will be now available to use.
- To assign a winter screener, subscribe to the winter program under AVAILABLE PROGRAMS. Then, select the program to display each screener within the selected program.
- For additional support to prepare for winter screening, click on the [guide](#) or [video](#).

2. New Kindergarten and Geometry Readiness Screeners

- Kindergarten readiness standards are aligned to [Greer Erickson's counting routine](#) referenced in Oakland Schools' [Essential Elements Math Emergent & Conventional Flow Chart](#).
- The kindergarten readiness screener is designed as a one-on-one interview. Educators can record student responses directly into the student's online screener, or they can record student responses on paper to transfer into the online screener at a later time.
- 6th, 7th, 8th Grade, and High School Geometry readiness standards are end-of-year benchmarks selected from geometry and measurement standards.
- Fall and winter readiness screeners are scheduled to be available on November 6, 2023.
- During the 2023-24 school year, growth charts and quick checks are scheduled for development to frequently monitor progress. Then, visual guided practice will be developed to support the completion of unfinished learning.

3. Kids Back on Track Program

- The Delta Math RtI Program is an approved strategy in the MI Strategy Bank.
- Littera Education provides virtual interventionists trained to deliver lessons from Delta Math, either 1:1 or in small groups. [Click here](#) for Littera's alignment with MI funding requirements.
- K-12 Connect, supported through Grand Valley State University, trains GVSU students to provide virtual and in-person tutors. For more information, [click here](#).
