

Good Afternoon,

Please share these updates with your staff to support their implementation of the Delta Math RtI Program.

1. **Geometry Readiness Screeners**
2. **Math Tiered Fidelity Inventory**
3. **Visual Fluency Cards**

1. **Geometry Readiness Screeners**

- Geometry readiness screeners for middle and high school students will be available on August 15, 2023 to identify unfinished learning on [high priority readiness standards](#).
- Quick checks, growth charts, and visual guided practice will be developed during the 2023-24 school year.

2. **Math Tiered Fidelity Inventory**

- A Math-Tiered Fidelity Inventory (TFI) is currently being developed to help leadership teams assess their implementation of a multi-tiered system of support for mathematics.
- This document is being developed with leadership provided by the Berrien RESA and Lenawee ISD, and will be modeled after the Reading-TFI documents ([Elementary](#) and [Secondary](#)) provided by MiMTSS.
- This document will include item descriptions and scoring guides based on national research and will not reference specific screening and intervention programs.

3. **Visual Fluency Cards**

- Visual fluency cards were inspired by Graham Fletcher's [Multiplication Subitizing Cards](#) and are available because of a partnership with the Berrien RESA. [Visual fluency cards and directions](#) for 7 different activities are available for free and can be printed from the Tier 2 and Tier 3 tabs at www.deltamath.org.
- Visual fluency cards help students strengthen and maintain basic fact fluency using 5-frame, 10-frame, and area models to reinforce the following fluency strategies: Add from the larger number, make a ten to add, think add to subtract, multiply by 5 and some more, and think multiply to divide.
- Visual fluency cards printed on cardstock, cut, sorted, and bundled are now available to save teachers and interventionists preparation time.
- Elementary and Secondary packages support up to 10 students and contain 5 decks of cards per readiness standard.
- To purchase for summer school, or the upcoming school year, open the **Intervention Kit Order Form** located on the [Contact Us](#) support page and scroll down to the kit add-ons.

To ask questions or request implementation support, please email me at mklavon@oaisd.org.

Have a great day!

Mike Klavon
