

# 2<sup>nd</sup> Grade Readiness - Winter

## Script for Paper-based Screener

*(Total Time ≈ 20 minutes)*

Why? To identify students who may need extra help.

How? Screen all students and record scores into the Course Overview report.

### Teacher Notes:

- Verify that students are ready to screen with a pencil, readiness screener and blank sheet of paper.
- In the Screening Script, say what is in bold text and do what is in italicized text.
- Include an appropriate pause at the end of each statement.
- Provide the recommended wait time for each group of questions in this Screening Script.
  - If a student is finishing up a problem, you may provide up to 15 extra seconds before asking the group to stop and turn to the next page. We do not want to provide too much time where a student can meet the benchmark using inefficient strategies.

### Screening Script:

**This readiness screener will help me see what you understand so I can plan my teaching.**

**Do not move ahead of the whole group. After I read the directions for each question, you will be given time to complete it.**

*(Recommended time is provided with each question...please don't read these aloud)*

**After you answer the question, use the blank paper to cover your answers.**

**Once we move to the next page, do not go back.**

**For multiple choice questions, if you don't see your answer, please do not choose one.**

**Take a deep breath, relax and try your best!**

## 2<sup>nd</sup> Grade Readiness - Winter

*(Continued)*

### Question 1...scissors

**If you don't see scissors, please raise your hand. The scissors are a safety icon to help me see that everyone is on the correct question.**

*(Look for hands.)*

**Draw a line below the number that is shown by the base ten blocks.**

*(Wait 20 seconds.)*

### Please cover your answer and look at question 2...present

**Draw a line below the number that is shown by the base ten blocks.**

*(Wait 20 seconds.)*

### Please cover your answer and look at question 3...picnic basket

**Draw a line below the number that is shown by the base ten blocks.**

*(Wait 20 seconds.)*

### Turn to the next page and look at question 4...wallet

*(Look for hands.)*

**Draw a line below the answer choice that is ten more than twenty-seven.**

*(Wait 20 seconds.)*

### Please cover your answer and look at question 5...price tag

**Draw a line below the answer choice that is ten less than forty-two.**

*(Wait 20 seconds.)*

## 2<sup>nd</sup> Grade Readiness - Winter

*(Continued)*

**Please cover your answer and look at question 6...pencil**

**Draw a line below the answer choice that is ten less than eighty-five.**

*(Wait 20 seconds.)*

**Turn to the next page and look at question 7...hand**

*(Look for hands.)*

**Draw a line below the answer choice that compares the two numbers.**

*(Wait 20 seconds.)*

**Please cover your answer and look at question 8...soccer ball**

*(Look for hands.)*

**Draw a line below the answer choice that compares the two numbers.**

*(Wait 20 seconds.)*

**Please cover your answer and look at question 9...stars**

*(Look for hands.)*

**Draw a line below the answer choice that compares the two numbers.**

*(Wait 20 seconds.)*

**Please stop and put your pencil down.**

**Turn to the next page and keep your pencil down.**

**For questions 10 and 11, you will complete addition and subtraction problems.**

## 2<sup>nd</sup> Grade Readiness - Winter

*(Continued)*

### **Question 10...drum**

*(Look for hands.)*

**When you are told to begin, answer as many addition problems as you can in 1 minute.**

**Remember, please do not guess because I want to find out who needs extra help.**

**Pick up your pencil and begin.**

*(Wait 1 minute.)*

**Please stop, put your pencil down and turn your paper over.**

### **Question 11...house**

*(Look for hands.)*

**When you are told to begin, answer as many subtraction problems as you can in 1 minute.**

**Please remember, do not guess because I want to find out who needs extra help.**

**Pick up your pencil and begin.**

*(Wait 1 minute.)*

**Please stop and put your pencil down.**

**This math screener is now finished, thank you for trying your best!**

**Make sure your name is on the first page of your packet and I will collect it.**

Turn to the next page for *Recommended Next Steps* to measure the impact of fall intervention and update groups for Tier 2 intervention during the winter.

# Recommended Next Steps

## 2<sup>nd</sup> Grade Readiness - Winter

### After screening students for readiness:

- Collect the readiness screener from each student.
- Record the number of correct answers at the bottom of each page.
- Build a Course Overview Report.
  - Open the Excel Spreadsheet called, [Course Overview Report](#).
  - Select [Grade 2 Readiness](#) near the bottom of the page.
  - Enter the [Number Correct](#) for each page.
    - Cells will turn green for students who met or exceeded the benchmark.
    - Cells will turn red for students who did not meet the benchmark.
      - For most readiness standards, the benchmark is 2 out of 3 correct.
      - For the timed facts, the benchmark is 10 or more correct within 1 minute.
- Analyze the impact of fall intervention
  - Identify and reflect on the readiness standards that had significant gains.
  - Reflect on each targeted intervention to correlate actions with these gains.
  - Discuss a plan to address the readiness standards that had little or no gains.
  - Celebrate gains with other educators and share specific actions and/or strategies that might have promoted these results with your plans to provide continued support during the winter.
- Make a schedule for providing additional intervention during the winter.
  - Which readiness standard require winter intervention cycles?
  - Which students require winter intervention?
  - When will students receive winter intervention?
- Communicate successes and updated action plans to parents and students.
- Provide Tier 2 intervention that follows evidence-based recommendations from the Institute of Education Sciences that include: Explicit instruction that is systematic, visual representations of mathematical ideas, progress monitoring, motivational strategies such as personal goal setting.
