

Independent Practice (You Do)

2nd Grade - Readiness Standard 4 - 1.OA.6a

Learning Target: I will add numbers to 10

Title of Game: "Whose Sum is Greater"

Number of Players: 2

Objective: To be the player with the most cards at the end of the game.

Materials:

- Addition Problem Cards (Player 1 - set A and Player 2 - Set B)

Directions:

- Each player shuffles their cards and places them face down in a pile.
- Player 1: Flip over the top card, say the problem and count on from the greatest number to find the answer.
Example: "2 + 4 = foouurr, 5, 6, 2 + 4 = 6"
- Player 2: Flip over the top card, say the problem and count on from the greatest number to find the answer.
Example: "7 + 1 = seevveenn, 8, 7 + 1 = 8"
- The player with the greater answer takes both cards
- Repeat until all cards have been played

Decide the Winner:

- At the end of the game, the teacher flips a coin
 - If the coin lands **heads up**, the winner is the player with the **greater** number of cards
 - If the coin lands **tails up**, the winner is the player with the **lesser** number of cards
